

Dreika K1 N with studs and one clamp, bulk packaging

The Dreika K1 N is used with upright reinforcement. N stands for the dimpled contact surface. The dimpled surface means that the spacer is not in full contact with the formwork and is only slightly visible on the concrete surface after concreting. The length of the Dreika is designed for a rebar spacing of up to max. 27 cm. A steel clamp Ø2 mm is fitted at the factory. The Dreika can be mounted on reinforcing steel Ø 6-14 mm. The clamp ensures very quick installation. Thanks to its fastening and elongated shape, the Dreika is tilt-proof and stable.

Dreika K1 N with studs and one clamp, bulk packaging

Article number	Title of variant	Concrete cover mm	L mm	Packaging piece/ metre/ metre by the metre/ bucket/ bag/ bundle/ box/ can	Packaging piece/pallet	Weight kg/100 pieces	Packaging piece/gibo
