

Middle cornice platform MGB on mobile frame

Mobile work platform for the efficient installation of BETOMAX® cornice consoles and pipelines or inspection views or renovation work under the central cap areas of bridge superstructures that are close together.

Permissible platform load:

100 kg per m² and 200 kg moving single load

For assembly work below the bridge in tight spaces in the central canopy area

The work platform is available in widths of 1.20 m, 1.50 m and 2.00 m

Can be used as a pre- or post-runner

Forerunner = assembly, follower = dismantling
